Attention: Kay Strong

Dear Kay,

I just wanted to take the time to thank you for all the wonderful service that you and your staff have provided us through the years. Everyone at your firm is always so helpful and pleasant whenever we have any contact with them. Your staff goes "above and beyond" to solve any payroll problems that we might have.

I might add that your payroll printouts are much easier to interpret any other forms that I have used at my other clients offices. The most important favorable aspect of CSS is your degree of accuracy with all of your payroll processing. No one knows better than accountants how much time it saves us to be able to transmit payroll once and be done with it.

You can be sure that I will continue to recommend CSS to all of my clients.

Best Regards,
